PRESIDENT'S MESSAGE

2901 Silverleaf Dr.
Austin, TX. 78757
512/452-2675

Dear Fellow Members — Do you realize that TNA is now 28 years old? There are still a number of us around who joined in early 1960, but the ranks are getting thinner. I have always been pleased to say, "I, too, joined in early 1960." My membership has continued to bring me the pleasure of meeting and knowing a wide circle of friends with similar interests. From time to time I reflect on what I consider some of the advantages of membership in TNA. I wonder if you do, also? When you invite someone into TNA membership the invitation will be more meaningful if you will give that prospective member some good reasons for joining.

TNA is a non-profit, educational organization founded in January 1960, and invites to membership all worthy persons who are at least nine years of age and have a sincere interest in the collecting and study of coins, paper money, tokens, medals and related items. TNA's purposes are to promote and advance interest in, and comprehensive knowledge of, numismatics; to cultivate friendly relations among fellow collectors; to hold periodic meetings and exhibits; to provide a place and time to buy, sell and trade numismatic items; and to serve its members collectively, not individually.

Among the advantages of TNA membership are: to have a fraternal affiliation with numismatists of Texas; to know their collecting interests; to participate in the annual convention; and to receive the official publication. TNA membership offers prestige on the state level just as ANA membership offers prestige on the national level.

Each member, except for Associates, receives the **TNA NEWS** at no additional cost. Insofar as possible, this publication will keep you informed about your association and the individual and chapter members. It carries timely articles and features, and its pages are free to all members to express their views and to contribute articles for the advancement of numismatics. Those members seeking information may ask for assistance through the pages of the **TNA NEWS.** Those having items for sale or trade may advertise for a nominal sum. The **TNA NEWS** is the voice of TNA.

TNA meets in annual conventions at which time members are always entitled to a voice. Entertainment and time for renewal of friendships are an important part of the conventions as are the educational exhibits. The bourse activity provides an opportunity to buy, sell and trade.

Mention some of the above reasons for joining TNA. I'll bet you'll be surprised at your success. If you need applications your secretary or I will be glad to send you a supply. See ya' next month.

EMERGENCY MONEY OF 1914 — 1923

Cliff Valley
San Antonio, Texas

From the early years of World War I through the inflationary periods of the early 1920's, emergency-issue money was very prevalent throughout the world. Over 70 countries had emergency issues and these issues were quite varied in both type and denomination. For the American collector, a great similarity can be found between these (especially those in my area of interest, Germany and Austria) and the Hard Times tokens of our own mid-19th century.

The monies we will discuss go by a number of different names, including Notgeld (which literally means emergency money), Kreigsgeld (war money), Kleingeldersatz Mark (small money of fake value), and Gutschein (voucher). The form of these monies was as varied as the denomination, but I will list the principal types:

1. Public and Private Paper Notes
2. POW Papers and Coins
3. Public and Private Coinage
4. Gas and Electric Tokens
5. Food, Beer and Consumables Tokens
6. Military Issues (i.e. Canteen Money)
7. Encased Postage Stamps
8. Porcelain Clay Coins
9. Street, Rail and Transportation Tokens
10. Coupons and Bonds (These are included as some were declared legal currency in 1918.)

I did not include inflationary notes of state or federal issue. They were already in use and do not fit the definition of the category.

The composition of the various types was usually paper, iron and zinc with lesser amounts of aluminum, brass, copper, nickel and plated forms. Still rarer are the porcelain issues of eastern Germany made for the federal, state and local governments. Also there are instances of money being made of lead, cardboard, wood fiber, rubber, leather, cloth, coal, celluloid, gelatin and playing cards. All in all, it has been estimated that in Germany alone, there were some 163,000 different paper issues and approximately 8,800 metallic porcelain ones.

Historically, emergency money in Germany and Austria went through six stages. The first began on July 31, 1914 when Bremen issued notes of 1, 2, and 2½ Marks. This period ran through 1915 and was one of local issues, mainly in areas bordering war zones where valuable metals were being hoarded. All issues were paper and most had stubs, like checks, to allay counterfeiting. There are few surviving examples of this period to be found due to redemption and destruction of the notes.

The second period, which went into 1918, was found in most countries affected by World War I. The war's effects were being felt and hoarding was widespread. It was here that metallic Kriegsgeld issues

appeared. From 1918 to 1919, the third period, the effects of supply shortages brought on inflation in prices, and larger denominations appear.

The fourth period, 1919-1922, was characterized by highly artistic nationalistic designs appearing on paper notes, most especially in Austria, were made for collectors or as souvenirs. Gutschein notes, which were the earliest forms, now came to be these collectibles. Many were fake, often using imaginary towns or elaborate themes to sell better. Though still issued by towns, these were given with the idea of not redeeming them. There were many collector's clubs (who also issued their own notes) and a thriving business grew up in catalogs and books.

This all ended in 1922 when, with the trend pressing for payment of a 33-billion Mark war debt, inflation began to soar. By June 24, 1922 the Mark was valued at 300 to a United States dollar and it would rise to 10,2000 to a dollar by January of 1923. Then hyper-inflation set in. By November 20, 1923, when Dr. Hjalmar Schacht froze the banks, the Mark was running at 4.2 trillion per dollar (on the black market it ran up to 12 trillion per dollar). Schacht seized public lands, set up the Renten bank and effectively erased the inflation with a new monetary system, thus ending the fifth period. The last period was marked by hard value, commodity based notes which are quite scarce, while the earlier period notes were all high, overinflated values.

Collecting these types is interesting but can be tough. Many are common enough, especially the paper ones, which can be found in excellent condition at a cheap price. Coinage is easy to a point but quickly gets hard when looking for many pieces, especially porcelain and private issues. I recommend Notgeld as a sideline for the collector as it is not only entertaining but gives a great sense of history as well.

TID BITS FROM THE NUMISMATIC WORLD

Something new for young visitors has been added to the American Numismatic Association Money Museum in Colorado Springs. Recently installed is a "treasure chest" containing hundreds of world coins donated by Art Jorgensen, a Colorado Springs coin dealer. The purpose is to attract visitors, families in particular, to the ANA Museum and to provide the opportunity for young people to become interested in coin collecting or add to their existing collections. Children are invited to select an item or two at no charge. So next time a visit is made to the Museum, let the young ones pick and choose a coin or two.

R. E. (Bob) Wallace of Fort Worth has announced that his new price list is completed for stamp collectors of Texas Sesquicentennial covers. It is the most complete listing of TS covers and uses a date chronology beginning in August 1981 with the show cachet of Houpex Sesquicentennial Committee and ending December 31, 1986 with a six-page town index for handy reference. A total of 9,223 different covers are listed for 1,405 different events in 748 towns and cities. Write Wallace at 312 East Weatherford St., Fort Worth 76102.

A familiar figure in the numismatic world visited briefly in San Antonio in March — Ed Rochette, former Executive Director of the ANA. Ed is spokesman for the U.S. Mint in Denver, Colo. and was promoting the mint's commemorative issues that help support causes such as the U.S. Olympic Committee. He appeared on an early morning television talk show and was interviewed by an Express-News staff writer for a newspaper article.

Western Australia plans to establish an international gold bank and will issue an Australian Gold Note — a government note backed 100% by gold in the form of Australian nuggets. It will mark the only country in the world to issue gold backed notes.

In 1987, the official mint of South Dakota minted a "family" of eight different sized 99.9% fine gold bullion pieces featuring two bisons standing on the prairie on one side and the great seal of South Dakota on the other side. The new piece features one bison drinking water, and bears a 1988 date. Using gold from the Homestate Mining Co., South Dakota produces the only bullion program that is designed, mined, refined and minted in South Dakota.

mail \'mā(ə)l\ **order** \'ord-ər\ **phobia** \'fō-bē-ə\

n. an exaggerated fear of buying through mail order advertising

If you've got it, you're not alone. Mailorderphobia — the fear of buying "sight unseen" through mail order ads — affects thousands of collectors who once used the mails with confidence.

It's an unfortunate fact of life that "fast buck artists" have infiltrated the hobby. But you won't find them in NUMISMATIC NEWS. Because we simply won't allow it.

All NUMISMATIC NEWS advertisers pass a strict screening policy before they utilize our pages. To further protect the interests of our valued subscribers, we conduct an ongoing intensive "blind testing" program, insuring that advertisers deliver what's promised.

By spending thousands of dollars annually this way, we continually affirm the integrity of our advertisers, and recognize their sound business practices with our seal of approval — the Krause Publications Customer Service Award.

While the constant shadow of mailorderphobia may lurk over others in the hobby, the sun shines bright on NUMISMATIC NEWS subscribers. You can rely on us to provide an atmosphere that promotes a fair exchange — in every transaction you make.

During the past several months, and occurring too closely in time to recover adequately after each tragedy, the San Antonio coin clubs — Alamo and Gateway — and the Texas Numismatic Association, Inc. lost three long-time and distinguished numismatists who succumbed to health problems — one to an apparent heart attack while in the hospital for tests and two to cancer. Wally Gilmore, Lee Grossman and Freeman Craig Sr. — all gone now, but not forgotten.

Like countless others, I personally mourn for them; I counted each as a friend and each, in his own way, left his mark on the hobby and our organization. I've heard a number of people say recently that they wish they had known the trio better and had gleaned a little more knowledge and wisdom from them. I number myself in that group also.

What I lament most is that while each of the three derived so much pleasure from numismatics and each contributed immensely to younger generations of collectors, each had so much more to contribute. I feel a void and some guilt that I couldn't, or didn't, spend more time with them to record and to pass on to others their collective wit, their sense of service to the numismatic fraternity and their stories of how it was in the "old days" of collecting. I'll miss each of them — Wally, Lee and Freeman.

The 1988 TNA Bronze Medal Project is gaining momentum. I'm elated to report that at this time seven junior members have earned a total of 32 bronze medals, as well as numerous numismatic items donated by several coin dealers who are TNA members.

The following are the junior members who have participated in the Medals Project: Heather Grubb, Jeff Hurt, Anthony Fischer, Ana Luisa Ortiz, Christina Burlesson, Kwan Shek, and Darren Davis. I sincerely hope that by my next message, the number of junior members participating in the Medals Project will be even larger.

In this month's article, the Numismatic Spotlight will focus on Ana Luisa Ortiz. Last month Ana Luisa sent me some background information which I had requested. As each junior responds to my request, I will write about him or her in future issues of the **TNA News.**

Ana Luisa is a 16 year old senior who attends William P. Clements High School in Sugar Land. Her numismatic interests are mainly in foreign coins: Mexico, Dominican Republic and El Salvador. She is a member of TNA, Clements Coin Club and the Greater Houston Coin Club. Her other hobbies include reading, dancing, art, music and writing letters.

At school Ana Luisa enjoys participating in sports. She has been a member of the basketball, volleyball, tennis and baseball teams. Other school activities include membership in the Naval Junior Reserve Officer Training Corps (NJROTC) and the Clements Coin Club. Ralph Ross, a math teacher at Clements High School, introduced Ana Luisa to the Clements Coin Club.

She developed an interest in coin collecting during junior high school. Friends and family members are a constant supply of coins and paper currency to her collection.

A special thanks to Armando De La Pena, owner of Castle Coins in San Antonio. Armando donated some numismatic material to be awarded as bonus gifts for juniors who earned bronze medals.

A convention report about the juniors and their Bronze Medal Project activities will be featured in my next message.

Until next time, juniors, keep working for your bronze TNA medals.

THE RARITIES GROUP.

As experienced buyers of U.S. coinage know, The Rarities Group, Inc. is the "One To Beat" on the auction circuit. But did you know that we actually buy far more coins privately or in dealer-to-dealer transactions than in auctions?

The fact of the matter is we pay consistent and fair prices for all your coins, i.e. we won't just cherry pick.

Currently, we are in need of quality U.S. rare coins whether they are "raw" (uncertified) or certified (PCGS or ANACS). For certified coins we pay competitive sight unseen prices and will pay a premium for select quality.

So, if you're a dealer, collector or an attorney or banker handling an estate, do us both a favor – contact our office and ask to speak with Martin Paul or Stu Levine.

JULIUS CAESAR COIN

Larry Haegle
Fort Worth, Texas

The first Spaniards to come into Texas were looking for the fabled Seven Cities of Gold. An expedition under Coronado crossed the Rio Grande River and entered Texas in the 1540's. The expedition failed; there was no gold found and Coronado returned to Mexico.

The Spanish conquistador got his orders from Madrid which, in ancient time, was a territory of the Roman Empire. Research at the Kimbell Art Museum library caught my interest after viewing the Hunt's collection of Roman coins exhibited in the museum in Fort Worth.

Roman coins were made from three metals: gold, silver and bronze. The first coins were 95% to 98% pure. But with the decline of the Empire, less silver and gold were in the coins. The first coins were cast in about 290 B.C. — simple bronze ingots bearing the image of an ox. The Latin word for money, Pecrenia, is derived from pecus or cattle.

The morality of the early Romans prohibited them from glorifying living persons by producing their likenesses on coins. The ruler who made the change was Julius Caesar dic (ator) (in)perpetua, "Dictator For Life."
